Product List Page

➔ The following table view is provided on the Product List page, and it includes the product title, price, category, and image. Please see the following table for further information.

➔ When you click the edit button, you'll be taken to the product form page, where the product data will be auto filled.

➔ Ask for the user confirmation before delete any product.

➔ On click of "Product Title", all the products should be sorted via asc and desc order vice versa.

Products

Product Image	Product Title	Category	Price	Actions
